1) General Housekeeping

Safe School Routes – They granted us a blinking light crossing system; It will take a year to be installed, but in the mean time they will put flags up.

Mrs. Brecht also discussed how the sound system was installed before the play.

2) Land trust items:

Professional Development will start in August.

Leilani asked how we felt about the Golden Gate movement. A couple of parents discussed that the kids feel that the class part of it is seen as more work. In conclusion, most people think it is a good program that helps the kids to understand the difference between being kind instead of calling all unattractive behavior- bullying.

Collaboration/interventions take place the same as they have during Specials.

Aids are provided for teachers to be able to engage in interventions and they will teach enrichment in STEM classes and music.

Leilani said we will be having a surplus because of the school closure and we will have 8 aids covering the specials, and next year we will have a couple of extra to cover the bigger grades.

3) Feedback from parents/teacher on new online schooling system

The group discussed the hardships and benefits of online schooling and how things may be able to go more smoothly for parents, teachers, and students
