

Dear Parents, "Let's LAUNCH each day!"

The most important element of any classroom management system is an abundance of positive feedback. There will be many opportunities for each child to be recognized and rewarded each day. There will be special incentives throughout the year to keep interest and engagement high.

My classroom management system is based on the philosophy that every child has the right to learn in an environment that is free from distractions and is safe and loving. Students have the right to learn and teachers also have the right to teach. I try to keep words, actions, and interactions positive and treat others as I would like to be treated. If there are behavior problems, I will contact you directly and we can make a plan for your student.
